

Shorty (Short Tail)
Adopted January 16, 2010

We came to the shelter looking for a friend for our wild, crazy extremely playful 9 month old kitten Tucker. We work full time and poor Tucker never had anyone to play with so he rarely could get all his energy out. When we walked into the shelter we saw Shorty (Short tail) and knew she was the one! She was labeled green, which is what we thought Tucker would be labeled too! When we took her home that weekend we soon realized she might have been mislabeled. She was timid, shy and wouldn't come out from under the bed. We had to keep Shorty and Tucker separate for a whole week because Tucker was a little too rough.

After a couple of weeks Shorty started holding her own. Now we often see Shorty chasing Tucker around giving him a run for his money! They like to play but they also like to snuggle up with each other on the couch and at night at the foot of the bed!

Shorty is the perfect kitten; she's gentle, loving, playful and loves to follow us around. When she's not playing with her brother, she can often be found snuggled up with us on the couch, sitting on the bathroom counter in the morning and watching over while we cook dinner at night!

She loves her new home and we couldn't love her more! We're very glad we brought her home to live with us. Now we have two happy kittens 😊
