

# Chip (formerly Cookie)

I first met Chip, when he wiggled his way between me and the other kitten I was going to pet. I took that as a sign and lifted him out of the cage. He settled right into my arms - there was no fidgeting or daring escape attempt. He just looked up at me and was content to enjoy the view as I held him. That's when I knew I'd found "the one", well, the furry one anyway! He was a favorite with the wonderful ARL staff so I felt I bit bad about separating him, but we all knew he was going on to bigger and better things.

Once we got past the ride home (a kitten trapped in a dark box is not a happy kitten), we had a great time getting to know one another. It's true when they say your pet chooses you...I'm lucky that Chip chose me.

Chip is the friendliest and most confident kitten I've met! He has won over many friends and family members, most notably one who was afraid of cats, with his charm, playfulness, noteworthy fetch skills, love of belly rubs and of course, his willingness to snuggle and "turn on the motor." I've found that he makes me laugh at least once a day! I credit his good manners, good health and trusting nature to those involved with the Animal Refuge League. It's clear that the ARL staff and foster families provide excellent care and nurturing. Thank you so much for the important work that you do!

Sincerely,  
Ann-Marie & Chip
