

Please Meet Chloe, formerly Chiquita

Where do I begin on Chloe's (formerly Chiquita) success story? She caught my eye the day I saw her at the Animal Refuge League. Chirping at me like a little bird asking to bring her home. I knew in an instant that I couldn't leave without her, especially, when she grabbed my finger with her fluffy paw.

Bringing her into our home was such a wonderful experience. I've never met a cat with such a sweet, mellow personality. The first 5 minutes in her luxury bedroom suite, she was playing and purring like she had been with us for years.

We also have 2 other female cats, both rescued, one is 14 and the other almost 2 years. Chloe and her 2 year old sister play and clean each other like they were litter mates. It's amazing and very amusing! And if she's not playing with her sister, she loves to play with rolled up balls of paper.

I think Chloe knew her success story was to be with us, I see it everyday when I look in those big, golden eyes.

Thank you Animal Refuge League!
