

Patch and Rosebud

This is a true story about Patch and Rosebud, two kittens who arrived at the ARL without a mom. They were only 2-3 days old and didn't have much of a chance. We're happy to say that because of a foster family's time and dedication, these kittens will be 5 years old this year! They still live with the other pets featured in these pictures, along with a few others.

The point of this story is not so much about Patch and Rosebud, but it is more about the difference our Foster Families make in the lives of hundreds of animals like Patch and Rosebud. A difference you can make...

Their beginning was pretty rough and they needed round-the-clock care, but hundreds of kittens arrive here with a mom to care for them. They just need a temporary home where Mom can do her job!

For the many Patches and Rosebuds that will arrive this year, please consider opening your heart and home so they can have a chance to grow up and find a loving forever home.

Hi Mom?

What do you think this guy wants?

I don't know. Just don't look at him!
