

ZOE

I am happy when she has met members of our family and friends, because she is so cute and charming!!! She also frequently gets compliments when we are out, from "what kind of dog is that?" to "she looks like a cartoon!"

She has that terrier fuzzy-face look and long hair around her shoulders with patches of brindle and this stubby little tail - she just looks very unique. Her papers called her a "terrier mix mix" so I often tell people that's what she is.

I always tell them where we got her from. We adopted a dog from the ARL about 10 years ago (a brindle Dane mix, "zena" at the shelter, we called her sasha. She was AWESOME!) and she died last June. Zoe definitely fills a spot in our hearts that the loss of Sasha left empty. she has made our family complete.
